

# COPELAND CANOE CLUB

Western Lake District

## Club Award

Until 2008 our annual award was the Peter Johnston Shield. This was a memorial to a young man who wanted desperately to go canoeing but because of a terminal illness never had the chance to do so. It was awarded on an annual basis to someone in the club who has in the opinion of the committee and members shown over previous years qualities such as perseverance, improvement in paddling ability, encouragement to others, general all-round effort, and being a good club member.

In 2007 the Shield became full and we felt it was time to move on as few amongst us knew of Peter any more. We asked John Bird to organize a new award for 2008, keeping the same criteria as before. The new award is in the form of an Open Canoe paddle with small shields on.
